

## TIME TO ORDER MCH PACKS for 2019

We have been fighting the bark beetle problems at Arrowhead for a long time. Although we have been extremely successful at Arrowhead, unfortunately the problem continues to get worse every year all around Arrowhead. If you have Douglas fir or spruce trees on your property or the surrounding common land you need to order MCH packs. The locations where problems continue to occur within Arrowhead are where owners do not put up the MCH packs.

The price is the same as last year at \$1.21 each. Please make checks out to: **Arrowhead Improvements Association (AIA)** and send to **Bill Conway, 1734 SE 52<sup>nd</sup> Ave, Portland, OR 97215**. Please have your checks to Bill by January 31, 2019.

For information on how many MCH packs to order, visit the [Forest Management](#) page of the [AIA website](#) or [click here](#) review the article “**How Many MCH Packs Should I Order**”. If you have additional questions or want to know how many you ordered last year please contact Bill at [arrowheadforestmanager@gmail.com](mailto:arrowheadforestmanager@gmail.com) or 541-729-6259.

MCH packs will be available for pickup at Arrowhead about May 15, 2019 and should be put up in early June. If those times don't fit your plans, contact Bill and he can arrange to have the MCH packs put up for you with a donation of your choice to the Arrowhead Volunteer Fire Department.
