

Gordon Shackelford, Lecturer Emeritus, Physics Department, SDSU.

Education: B.S. M.S.

Professional: Electronic Designer, Physics Faculty and Associate Dean of Sciences, which included construction management at the Mount Laguna Observatory.

Elected Office: Elected several times to the Lakeside Community Planning Group, serving as Chair or Vice Chair of the group for eight years. I have extensive experience, and success, representing the community at San Diego County hearings. Our County Supervisor refers to me as “an expert in land use matters.”

Volunteer: I have served on City and County technical reviews and currently am treasurer for two non-profits.

Janis and I chose Arrowhead Ranch because of its beauty, allowance for a variety of residential uses and protections afforded by its Protective Covenants. We built our cabin during the mid 1990s.

While I respect the volunteer service by current board members, much needs to change, starting with meeting atmosphere. Meetings should be conducted with the highest standards of openness, respect for speakers and consistency with Arrowhead's Covenants. AIA Board meetings, generally, do not need the presence of a lawyer. For the last three years, AIA legal expenditures have averaged \$32,000 annually, which is equivalent to one month's AIA dues revenue each year.

The AIA Board's attention also needs to be directed to the two most important long-term issues for Arrowhead: the eventual acquisition of the water company and the ever-present threat of fire.

I look forward to contributing my skills and experience to the continued improvement of Arrowhead. I ask for your support.

Gordon Shackelford
